

MHL to VGA and Stereo Audio Converter

The MHL (Mobile High-Definition Link) Consortium was formed to develop a new mobile audio/video interface standard for directly connecting mobile phones and other portable consumer electronics (CE) devices to high-definition televisions (HDTVs) and displays. The MHL standard features a single-cable with a low pin-count interface able to support up to 1080p high-definition (HD) video and digital audio while simultaneously charging the connected device conference room presentation, school and corporate training environments.

MHL to VGA Adapter Cable with Stereo Audio for Samsung Galaxy S III (i9300) & Galaxy Note II .

■ Features and Characteristics

- The MHL Micro 11Pin male to VGA female adapter is ideal for connecting your Tablet, Smartphone or other MHL enabled device to an VGA monitor using your VGA cable.
